

# OREGON AND SW WASHINGTON

July 1, 2014 – June 30, 2015

## What needs do 211info callers have?

### TOP 10 CALLER NEEDS

There was a total of 157,557 caller needs. The top 10 categories include utility assistance, rent and rental deposit assistance, shelter, subsidized housing, SNAP, emergency food and meals, housing search assistance, transitional housing, holiday programs and dental care.

# OREGON AND SW WASHINGTON

July 1, 2014 – June 30, 2015

## Where are potential service gaps?

There were 16,373 instances where a referral was not available for the caller's requested need.

In some cases, agencies are out of funding for a program; community need often outweighs the help available. Some services simply don't exist in a community. For example, there are often requests for free or low-cost burial services.

### Top needs where a referral was not available

Utility assistance.....	2,757
Rent and rental deposit assistance.....	2,367
Shelter.....	2,265
Transportation expense assistance.....	1,352
Holiday programs.....	538

## What was the response to follow-up calls?

What circumstances led you to seek assistance?

Unemployed/underemployed.....	27%
Catastrophic injury/illness.....	11%
Fixed income.....	9%
Change in household status.....	8%
Uninsured/underinsured.....	5%
Loss of benefits.....	2%
Other.....	38%

As a result of the referrals we provided, did you get the help you needed?

During the year, we followed up with 196 callers statewide.

If no, were you able to get your needs met another way?

As a result of calling 211, do you have a better understanding of what resources may be available to you?

Overall, were you satisfied with the level of service provided by 211?

Family/friends.....	37%
Paid out of pocket.....	12%
Agency outside of the referral provided.....	8%
Payment plan.....	8%
Church.....	2%
Other.....	33%

## How many people contact 211info?

Chart shows calls, texts and emails to 211info. During the year we answered 107,920 calls and responded to 7,214 texts and emails. Beginning January 2015, this includes the number of times that residents have opted to listen to recorded messages providing daily updates on energy assistance availability.

## Who's calling 211info?

### AGE

### GENDER

### RACE AND ETHNICITY

▲ 26%  
POVERTY-----100%-----LEVEL  
▼ 74%

Most callers who reported income level were at or below the federal poverty level (FPL). In 2015, the poverty level for a family of 4 is \$24,250 gross annual income.

This year, we assisted 2,859 callers in 39 languages other than English.

# OREGON AND SW WASHINGTON

July 1, 2014 – June 30, 2015

## How many people visit 211info.org?

Chart shows web visits to 211info.org. During the last year, there were 287,391 visits.

## What are people searching for online?

### Top 10 searched services

Rent payment assistance.....	15,555
Electric service payment assistance.....	14,776
Food pantries.....	10,998
Holiday gifts/toys.....	7,476
Christmas programs.....	6,540
Subsidized housing.....	6,530
Transitional housing.....	6,317
Housing search assistance.....	5,888
Low cost rental listings.....	4,961
Homeless motel vouchers.....	4,392

# ESEA Title IA Funding and Programs

---

October 1, 2015

## Title IA Purpose

---

The purpose of Title IA is to improve the academic achievement of disadvantaged students. Title IA funds are designed to go to schools with the highest concentrations of low income students.

## Title IA Funding

---

U.S. Department of Education (USDE) distributes funds made available from Congress to states based on Census poverty.

## Basis for Funding

---

Census poverty is calculated annually using SAIPE data.

This poverty data is used by USDE to provide Title IA allocations to states and districts.

## Challenges in Funding Model

---

The census data has challenges because it is based on the 5-17 year olds living in the census tracts in the district boundaries.

## Included Students

---

Some children on which funding is based may not be attending a school in the district because:

- Home schooled
- Private school
- Charter school in another district
- Inter-district transfer

## Funds Distribution to States

---

Funds come from USDE to ODE as district allocations and are not associated with individual students. Funds reflect the number of students the Census Bureau identifies as living in poverty within the district.

## Funding Types

---

The district Title IA allocation from USDE is made up of 4 different funding formulas and not all districts receive any or all of these formulas.

## Funding Types

---

The four formulas are:

- Basic
- Concentration
- Targeted
- Education Finance Incentive Grant (EFIG)

## District Rank and Serve

---

When the district receives the Title IA allocation, the district must rank order their schools based on the actual poverty rates of students attending the schools. This poverty number has generally been based on Free/Reduced Lunch numbers.

## Students Living in Poverty

---

Districts now may use Free/Reduced numbers or Community Eligibility Provision (CEP).

CEP provides an alternative to household applications for Free/Reduced lunch.

## Poverty Identification

---

USDA guidance requires schools to protect the identities of students who participate in either Free/Reduced lunch or CEP from staff and students.

USDA calls this, "preventing overt identification of children certified for free or reduced price school meals."

## District Funds Distribution

---

Once a district has determined poverty rates for all schools in the district including charter and online, the district must fund schools with 75% or higher poverty rates with Title IA funds.

## District Funds Distribution

---

After schools with 75%+ poverty are funded, the districts generally rank the rest of the schools by grade span and then by poverty.

The amount of the Title IA allocation and rates of funding determine how many schools get funded.

## Title IA Services in Schools

---

Services are provided to students most at risk of failing Oregon's academic achievement standards and must support the lowest achieving without regard to individual poverty status.

## Title IA Program Models

---

Once funds are allocated, school staff select one of two program models available to implement.

1. Targeted Assistance (TAS)
2. Schoolwide (SWP)

## Targeted Assistance (TAS)

---

### Program requirements:

- Must identify students who are failing or at risk of failing state academic standards not based on poverty status.
- Provide supplemental services.
- Funds used solely to benefit identified students.
- Services must be in addition to that which is provided from non-Title IA sources

## Schoolwide Program (SWP)

---

### Program requirements:

- School has 40% or greater poverty.
- Purpose to upgrade the entire educational program of the school.
- One year of planning while TAS is in place
- Support all students to meet Oregon's academic standard.
- Must provide core instruction with general funds.

## Title IA Expenditures

---

- Must be reasonable and necessary to carry out the program.
- Must be for educational purposes.
- Must meet the supplement not supplant requirements.

## Allowable Use of Funds

---

Office of Management and Budget (OMB) requires that the use of ESEA funds for specific purpose be:

- necessary and reasonable for the proper and efficient performance and administration of the program; and
- authorized and not prohibited under state and local laws or regulations.

## Allowable Use of Funds

---

**What Does “Necessary” Mean?**  
A cost is necessary when it is vital or required in order to meet the objectives of the grant or for the grant to be successful. It is not just a “nice to have.”

**What Does “Reasonable” Mean?**  
A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost.

## Supplement, Not Supplant

### 3 Questions

---

**Required-**

- Is the program or activity that the district wants to fund required under state, local or another federal law?

**Past Practice-**

- Were state and local funds used in the past to pay for this program, activity or staff?

**Non-Title Programs-**

- Are the same programs or activities being implemented in other schools AND are these programs and activities being paid for with state or local funds.

## Supplement, Not Supplant

---

Recipients of federal funds must maintain documentation which clearly demonstrates the supplementary nature of the funds and activities.

## Sources of Oregon K-12 Funding in 2013-14

### Operating Funds by Source

Federal	\$0.539 billion
Local	\$2.174 billion
State	<u>\$3.382 billion</u>
Total	\$6.095 billion

## Oregon's Funding Formula: Background

- The current formula was adopted by the 1991 legislature and was first used in 1992-93.
- The formula has not changed significantly over the years.
- The formula distributes most of the money—about 95%—on a “weighted” student basis, with higher-cost students weighted more heavily.
- The goal of the formula is to distribute funds equitably, compensating districts for differences in costs that are outside district control.
- ODE calculates the formula amounts for each district and ESD, then distributes the State School Fund as prescribed in law.
- Neither the formula nor ODE prescribes how districts and ESDs spend their formula revenue—those are local decisions.

## Oregon's Funding Formula

- About 80% of all district operating revenue comes to districts through the formula—commonly known as “Formula Revenue.”
- The remaining 20% is primarily state and federal grants, district fees and charges, and local option property tax revenue.
- The formula distributes a small amount of federal revenue, most local revenue, and nearly all state revenue.
- By statute, 95.5% of formula funds go to school districts and 4.5% go to ESDs.

## Oregon's Funding Formula: Categories of Revenue

### ➤ **State School Fund**

### ➤ **“Local” Revenue**

- Local property taxes 94%
- Common School Fund 3%
- Federal Forest Fees 1%
- County School Fund < 1%
- State-managed timber revenue 1%
- Excess ESD Revenue < 1%
- Revenue in Lieu of Taxes < 1%

## 2013-14 Formula Revenue: \$4.84 Billion

## Student Weights in the Funding Formula

➤ Regular (grades 1-12)	1.0
➤ Kindergarten students	0.5
➤ Special Education	Additional 1.0
➤ ESL	Additional 0.5
➤ Pregnant/Parenting	Additional 1.0
➤ <b>Poverty</b>	<b>Additional 0.25</b>
➤ Neglected & Delinquent	Additional 0.25
➤ Students in Foster Homes	Additional 0.25
➤ Small School Correction	Varies by size of school

## Funding for Students in Poverty, 2013-14

▪ Total Students in Poverty	83,140
▪ Poverty Weights @ .25 weight	20,785
▪ Revenue Attributed to Poverty Weight	\$137,716,520
▪ Federal Title IA and Title I-D Spending	<u>\$101,070,092</u>
▪ Total	\$238,786,612
